

# **iima Biannual Members' Meeting** **15-17 April 2024, Lisbon, Portugal**

## Outline agenda

**Day 1: Monday 15 April 2024 – 08:30 – 16:30**

### **IIMA committee meetings**

General committees – open to all members wishing to participate

- Technical Committee
- Sustainability Committee
- Communications Committee

Executive Committee

Board of Directors

***Drinks Reception-18:00 –20:00***

---

**Day 2: Tuesday 16 April 2024 – 09:00 – 17:00**

### **Plenary sessions**

Welcome address

#### **Session 1: Europe – a disrupted market**

IIMA's first biannual members' meeting in Europe since the pandemic offers a chance to take a fresh look at the industrial policy and related instruments that are shaping the steel and raw materials sector in the European Economic Area. In this session we will hear commentary on the EU policy shaping and driving the transition to carbon-neutral steel making and challenges and opportunities this is introducing for industry.

#### **Session 2: Merchant metallics market trends**

Presentations giving an overview of conditions in key markets for merchant OBMs and scrap.

***Lunch - 12:30 – 14:30***

# **iima Biannual Members' Meeting** **15-17 April 2024, Lisbon, Portugal**

## **Outline agenda** – continued

### **Session 3: OBMs and pathways to carbon neutral steelmaking**

Presentations based on the key findings and messages contained in some of the recent developments in our Whitepaper series. These will include a look at the prospects for the use of hydrogen in the production of OBMs, emerging technologies for the reduction of low-grade ores and a look at tackling Scope 3 emissions of GHGs

### **Session 4: Raw materials**

In this session we will hear from companies with projects that are addressing challenges and opportunities in the provision of iron ore for low-carbon steelmaking.

***IIMA Dinner 18:00 –22:00***

---

## **Day 3: Wednesday 17 April 2024 – 09:00 – 12:30 for lunch**

### **Reports from IIMA Committees**

#### **Plenary sessions**

#### **Session 5: How green is my product?**

Report of the work of the IIMA committees followed by presentations examining the CBAM regulation and a panel discussion on the implications for the global ore-based metallics sector.

#### **Session 6: Sustainability**

In this session we will hear from a couple of steel users on what they see as the key attributes of sustainability in the steel value chain.

#### **Closing remarks**

***Lunch 12:30 – 14:00***

- End of meeting -
